

Mudgee day trip

One for the driver

This whole trip is achievable in a day with an early start. Take the road into Lithgow and then follow the highway towards Bathurst. 10 kms past Lithgow take the left turn clearly marked to Mudgee. This is a very scenic road, Mudgee has a pretty town centre and numerous wineries. An alternative way back is to take the tourist circuit back through the historic towns of Rylstone and Kandos. When this road meets the main road again it is a short distance to Ilford and another alternative tourist road into Bathurst passing through the very interesting original gold town of Sofala. It is then a simple road back along the main highway or take another alternative road (the first road west) through the glorious countryside of O'Connell and Tarana both having great little pubs for dinner.
